# Daily Standup Meeting

| Project Name: Inventory Management System | Group Name: Sharp Coders |
|---|---|
| Sprint Number: 1 | Date and Time: 6th March 2026 |

**List of attendance:**

- Name: Abrar Faiyaz Nihal Attended? **YES**/NO
- Name: Samikshya Pun Attended? **YES**/NO
- Name: Farzan Ahmed Hossain Attended? **YES**/NO
- Name: Harunur Rashid Emon Attended? **YES**/NO
- Name: Rimel Pinak Attended? **YES**/NO

**Project Progress:**

**Team Member (1): Name: Abrar Faiyaz Nihal**

1. What did you accomplish yesterday?
   Answer: Done observing the initial app built solely on Console

2. What will you do today?
   Answer: Make plans on how to implement the classes on ASP.NET web app

3. What obstacles are impeding your progress?
   Answer: None so far

**Team Member (2): Name: Samikshya Pun**

1. What did you accomplish yesterday?
   Answer: Done observing the initial app built solely on Console

2. What will you do today?
   Answer: Tracking how long it will take to get to Frontend Development

3. What obstacles are impeding your progress?
   Answer: Will fill out daily logs first before discussing above issue with Leader

**<u>Team Member (3): Name:</u> Farzan Ahmed Hossain**

1. What did you accomplish yesterday?
   Answer: Ran the entirely console-based app to see if server receives requests and responds accordingly

2. What will you do today?
   Answer: Discuss with Leader and Developer # 2 on code optimisation

3. What obstacles are impeding your progress?
   Answer: None so far

**<u>Team Member (4): Name:</u> Harunur Rashid Emon**

1. What did you accomplish yesterday?
   Answer: Ran the entirely console-based app to see if server receives requests and responds accordingly

2. What will you do today?
   Answer: Make codes more efficient; taking notes of time-complexity issues

3. What obstacles are impeding your progress?
   Answer: None so far

**<u>Team Member (5): Name:</u> Rimel Pinak**

1. What did you accomplish yesterday?
   Answer: Ran different SQL scripts to sort data from the database after app run

2. What will you do today?
   Answer: Continue running background checks against the app to ensure no errors in code logic in relation to server

3. What obstacles are impeding your progress?
   Answer: None so far
